
How to change password in \"my profile\"

Posted by Mike/Glasair - 2007/03/15 08:08

A web site question.

Just in case one gets hacked, wondering how to change User password. Didn't see a way to do it in "my profile." Am I missing something?

No problem. Just log into your account at <http://myaccount.zaonflight.com>. Once you're logged in, scroll down to the bottom to the "Your Info" box. Click "edit" and change your password.
