
PCAS MRX with Garmin Aera 500

Posted by tedao - 2010/01/18 07:33

Can I connect my GPS Garmin Aera 500 within PCAS MRX ?

No replies to Aera 500. I am interested in interface with Aera 560.

Zaon support informed me on 11/24/09:

There are two answers, it depends on if you want to hardwire both devices or use them strictly portable (power off cig. plug.).

Hardwire: you can immediately hardwire both, using the Garmin pigtail and ours (XPD-X).

If portable only: We are working on a composite interface cable, no release date yet, hopefully within a month.

I am anxiously awaiting the interface cable.

Kevin
