
XRX - Fan noise ?

Posted by jgranax - 2007/06/19 04:46

I noticed my XRX is getting louder and louder, sounds like fan noise. Should this be sent in for inspection?

While a minimal amount of noise is generated by the cooling fan, it shouldn't change over time. If you feel that it is getting louder, please contact us and speak to a tech about the situation. Worst case is that we would replace the fan (if under warranty) free of charge.
