
Hard wire MRX to Bendix King KMA24H

Posted by T67Mflyer - 2009/07/14 02:45

Hi

Is it possible to hard wire a Zaon MRX/A to a Bendix King KMA24H audio panel. I operate a T67M-Mk2 which has two spare COM (input/output) ports and a spare ADF port. Is it possible to hard wire directly to one of these inputs of the KMA24H and if so would you be able to advise a method please.

Thanks.
